## A Request For Ongoing Help

Dear Friends of the NEW ENERGY MOVEMENT,

You have played a vital role in moving breakthrough energy technologies closer and closer to emergence. Through your support we have been able to advocate, educate, and establish important relationships for new energy. Thank you!

Since NEW ENERGY MOVEMENT's beginnings more than 10 years ago, the message of NEM has been presented at numerous conferences, in documentary films, policymaker meetings, and media interviews, including such high-profile venues as the United States Congress and the *Coast to Coast AM* radio program. The executive leadership of NEM is frequently engaged in consultations with researchers, inventors, investors and others who wish to collaborate in bringing about the New Energy Era.

### **We need your ongoing help.**

NEM incurs significant financial expenses associated with the assistance provided to inventors and for public outreach programs, including costs for travel, website maintenance, and basic administrative functions. The organization's executive staff continues their passionate work as uncompensated volunteers, and we leverage each donated dollar to the fullest. We are entirely dependent on the financial support of the Friends of the New Energy Movement to continue the execution of our mission.

NEM has a number of travel-dependent opportunities to assist qualified inventors who we believe have developed technologies of merit. However, our current finances are insufficient to allow us to fully pursue these time-sensitive opportunities over the next several months.

### **Please consider supporting NEW ENERGY MOVEMENT with a generous tax-deductible donation.**

Thank you for your personal interest and work toward the healing of our planet.

Peace to you and your families.

Joel Garbon  
President

Susan Kornacki  
Executive Director
