

Help Launch the New TV Series *Ultimate Energy Showdown!*

NEW ENERGY MOVEMENT, with your help, has a fantastic opportunity to play a pivotal role in the launch of a great new television / Internet series called *Ultimate Energy Showdown!*

The brainchild of award-winning documentary producer Christopher Toussaint (*Free Energy: The Race to Zero Point* and *Cold Fusion: Fire From Water*, among others), the new TV show would highlight the inventors of breakthrough clean energy technologies and rigorously test their performance claims. Each episode would feature 3 or 4 new technologies and put them to the test, so you can decide which ones have real promise and which ones are bunk.

This is a remarkable program that can provide a big boost to legitimate inventors and their game-changing technologies! It is time for REAL New Energy to break out in a big way, and we can help kick open the gate!

Christopher is seeking to raise \$5,000 in order to attend key media industry conferences and get in front of network executives, so that he can pitch his concept for *Ultimate Energy Showdown*. NEW ENERGY MOVEMENT has pledged to provide a minimum \$2000 “booster” grant to help make this happen. NEM president Joel Garbon and director Jeane Manning have personally contributed the first \$500 toward this grant and a case of their award-winning **Breakthrough Power** books, which Christopher will provide to his contacts as validation of the incredible array of potential new energy devices.

Here’s how you can help!

Simply make a tax-deductible donation to NEW ENERGY MOVEMENT by June 22 so that NEM can meet or exceed the pledged amount of the grant. To donate by credit card or PayPal, click on the “Donate” button on the NewEnergyMovement.org homepage. To donate by check, send your contribution to:
